1. ABOUT US

The Bison (**\$BISON**) is the Alpha of the Solana meme landscape. We aren't just another fleeting coin; we are a massive, unstoppable force of nature.

Forged in the fires of the 2026 meme resurgence, \$BISON combines the raw, unbridled energy of the American West with the high-frequency liquidity of the Solana network.

We represent the "Alpha Herd"—a community of diamond-handed degens who value strength, heritage, and the "Room to Roam."

2. MISSION

\$BISON is committed to building a crypto ecosystem rooted in transparency, ethical practices, and community trust.

4. PURPOSE: A COIN WITH A CONSCIENCE

UNITY ROOTED IN INTEGRITY

A single bison is powerful—an entire band is *legendary*.

That's the energy behind our community herd.

LEGACY CONSERVATION

Providing a sustainable revenue stream for Bison Conservation, ensuring America's National Mammal thrives.

6. THE GREAT RETURN

This coin was started with the basic design of being a meme coin. The leadership team saw an opportunity to follow their whole-hearted intentions of respect for this Great Country's heritage paying homage to the Bison. Our National Mammal is an integral species stabilizing the ecosystem of our vast homeland.

The Bison's presence doesn't just "fit into" the ecosystem - it *engineers* it. Our steadfast loyalty and view into conversation efforts for years to come is the Trickle Effect building an empire. What we do in this life with our wealth truly matters beyond the here and now.

Bison are a keystone species whose daily behaviors physically shape the land. Your investment directly contributes to the importance of this magnificent beast's impact on US soil by increasing plant diversity, improving soil health, raising wildlife abundance and making the prairie system become more resilient to drought and climate stress. This correlates to the Crypto market of Blockchain being the medium of wealth in the same aspect of increasing revenue streams, stabilizing incomes, solidifying honesty within the financial system and becoming more resilient to economic volatility.

**WE ARE WEAPONIZING DEGEN
GREED TO SOLVE A CENTURY-
OLD CONSERVATION DILEMMA.**

Community-led marketing to dominate "New Pairs" and "Trending" sections.

PHILANTHROPIC PROOF-OF-WORK

Publicly document every donation to build trust and "Moral Alpha."

SCARCITY LOGIC

Implement "Burn" mechanics and "Diamond Hand" rewards.
